

ADRIAN JASPIO

PROGRAMMER

PROFILE INFO

As a programmer, my objective is to use my skills and knowledge to develop efficient and effective software solutions that meet the needs of users and help organizations achieve their goals. I am a proactive and detail-oriented individual who is committed to staying up-to-date with the latest technologies and best practices in the field. I am eager to join a dynamic and collaborative team where I can contribute my skills and continue to learn and grow as a programmer.

WORK EXPERIENCE

MIS Supervisor

Jul 2024 - Present

MAYO HOLDINGS AND CONSTRUCTION (MHC), INC.

As an MIS Supervisor, I oversee the company's Management Information Systems, ensuring smooth operations, data security, and system efficiency. My role includes managing IT infrastructure, optimizing database structures, and supervising a team of programmers and IT specialists. I contribute to strategic planning, implement technological improvements, and ensure that our systems align with business objectives.

Senior Programmer

Sep 2023

MAYO HOLDINGS AND CONSTRUCTION (MHC), INC.

After being promoted to Senior Programmer, I took on greater responsibilities in system architecture, code optimization, and mentoring junior developers. I played a key role in designing and implementing complex features, improving development workflows, and ensuring code quality. My expertise in C# ASP.NET MVC allowed me to enhance application performance and security while leading crucial development projects.

Fullstack Programmer

2021

MAYO HOLDINGS AND CONSTRUCTION (MHC), INC.

As a Fullstack Programmer, I was responsible for developing and maintaining web applications using C# ASP.NET MVC. I handled both frontend and backend development, ensuring seamless integration between user interfaces and databases. My role involved troubleshooting issues, optimizing code performance, and collaborating with other teams to deliver efficient software solutions.

WORK EXPERIENCE

Application Programmer

2020 - 2021

ROYAL STAR APPLIANCE MARKETING INC.

Perform a variety of programming assignments based on the needs of the company. Update and expand existing programs. Debug programs by testing for and fixing errors-Identify user needs to create and administer databases. Ensure that the database operates efficiently and without error.

MY SKILLS & EXPERTISE

C# Language

ASP MVC

Video Editing

SQL Database

Photoshop

Technical

TECHNICAL SKILLS

- Object-oriented programming (OOP)
 - Strong understanding of OOP concepts such as classes, objects, inheritance, polymorphism, and encapsulation.
- ORM (Object Relational Mapping)
 - Ability to create my own ORM or use an existing one to map objects to tables in a relational database.
- Web development (HTML, CSS, JavaScript, jQuery)
 - Familiar with the basics of web development, including HTML, CSS, JavaScript, and jQuery.
- ASP.NET MVC
 - Experience with ASP.NET MVC, a popular framework for creating web applications in C#.
- Databases
 - Knowledgeable in SQL Server and its features, such as stored procedures, functions, user defined tables, table value functions, views, and more.
- Version control (Git)
 - Familiar with a version control system, such as Git, to track changes to my code.
- Collaboration
 - Able to work effectively with others, such as by sharing code and providing feedback.
- Applied TDD development practices, dev-ops & CI/CD skills

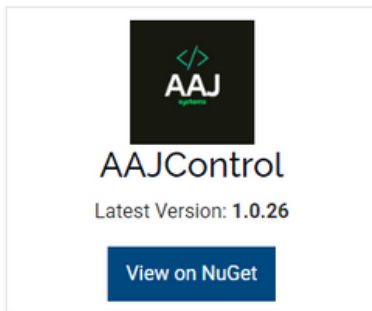

PROJECTS CREATED

- HUMAN RESOURCE MANAGEMENT SYSTEM
 - software application used to store employee information and support various human resource functions, such as benefits, payroll, recruiting, training, etc. This term is often used interchangeably with human resource information system (HRIS).
- PROGRAM MANAGEMENT SYSTEM
 - software application that stored sub application develop by the programmer.
 - enable user to choose the system they will use.
 - Assign system to the specific user.
 - Upload system.
- Attendance System
- JOB ORDER SYSTEM
- SMS SYSTEM
- IT TICKETING SYSTEM
- ACCOUNT MANAGEMENT SYSTEM
- CALENDAR SCHEDULING SYSTEM
- GATEPASS SYSTEM
- EMPLOYEE COMMON FUND SYSTEM
- E-COMMERCE WEBSITE USING WORDPRESS
- INVENTORY SYSTEM
